Quiz!

True or False: Plastic bags go in your recycling bin.

False:
Minimize thin plastics. While many forms of plastic are recyclable and acceptable, flimsy plastics such as shopping bags and other types of cellophane bags can jam recycling machines, adding increased costs to recycling operations, unless the plants are specially equipped (check your local recycling program guidelines).

If you use a reusable coffee cup, how many disposable coffee cups can be prevented from entering the ocean each year?

Quiz!

True or False: Popcorn bags are recyclable.

False: * **No containers with food.** Containers with food residue are not recyclable. Please remember to wash containers to eliminate food debris. If a container is food-soiled and cannot be washed (i.e. pizza boxes, paper plates, **microwave popcorn bags**), throw it away with non-recyclable items.
