D. U.S. DEPARTMENT OF STATE RESPONSIBILITIES

The U.S. Department of State (hereinafter referred to as the Department) has overall responsibility for Department-funded awards, including providing oversight for technical, programmatic, financial and administrative performance.

Grants Officer (GO):

Authorized by a warrant issued by the Department's Senior Procurement Executive, the GO is responsible for all actions on behalf of the Department, including entering into, amending, or terminating the award. In addition, the GO is responsible for the administrative coordination and liaison with the recipient. The GO is the only person authorized to approve changes to any of the requirements in the award.

Grants Officer Representative (GOR):

In accordance with Department policy, the GO is responsible for all aspects of the award but may designate technically qualified personnel to assist in the administration of grants. The GOR is delegated by the GO and responsible for the programmatic, technical, and/or scientific aspects of the award. The recipient should direct all correspondence related to programmatic and budgetary issues to both the GO and GOR.

E. RECIPIENT RESPONSIBILITIES AND COMPLIANCE WITH FEDERAL REQUIREMENTS

The recipient is responsible for notifying the Department of any significant developments relating to the administrative, programmatic or financial aspects of the award. Significant developments includes both adverse and beneficial events that impact the award. The recipient has full responsibility for the management of the project or activity supported under the award and for adherence to Federal regulations, the award provisions, and these terms and conditions. Although the recipient is encouraged to seek the advice and opinion of the GO and/or the GOR on special problems that may arise, such advice does not diminish the recipient's responsibility for making prudent and sound administrative judgments under the circumstances prevailing at the time the decision was made and should not imply that the responsibility for operating decisions has shifted to the Department.

In addition to the requirements specified in 2 CFR 200.332 , these terms and conditions flow down to all subrecipients and must be included in the recipient's subaward instrument. Depending on the type of entity, all subrecipients and subcontractors are subject to the Federal regulations specified in provision *C–Applicability* of these terms and conditions.

Nothing in this provision alters the recipient's responsibility for conduct of the project and compliance with all applicable laws and regulations.

F. UNIVERSAL IDENTIFIER AND SYSTEM OF AWARD MANAGEMENT

In compliance with 2 CFR 25.220, the Department has adopted the Award term—System for Award Management and Universal Identifier Requirements which is applicable to both recipients and subrecipients. The full text of this award term is included as Appendix 1 to these terms and conditions.

G. REPORTING SUBAWARD AND EXECUTIVE COMPENSATION INFORMATION

In compliance with 2 CFR 170.220, the Department has adopted the Award term—Reporting Subawards and Executive Compensation. The full text of this award term is included as Appendix 2 to these terms and conditions.

Awards that are deemed "sensitive," and therefore do not require Federal Funding Accountability and Transparency Act (FFATA) reporting, will include an award provision stating that the award is not subject to the FFATA subaward reporting requirements as outlined in the Office of Management and Budgets (OMB) guidance issued August 27, 2010.

2 CFR 180.300 prior to issuing a subaward or contract and;

2. Terminate or void in whole or in part any subaward or contract with a person or entity listed in the System for Award Management (SAM.gov) as a prohibited or restricted source pursuant to subtitle E of Title VIII of the NDAA for FY 2015, unless the Department of State provides written approval to continue the subaward or contract.

C. The Department of State has the authority to terminate or void this grant or cooperative agreement, in whole or in part, if the Department becomes aware that the recipient failed to exercise due diligence as required by paragraph (A) of this clause or if the Department becomes aware that any funds received under this grant or cooperative agreement have been provided directly or indirectly to a person or entity who is actively opposing coalition forces involved in a contingency operation in which members of the Armed Forces are actively engaged in hostilities.

II. Additional Access to Recipient Records

A. In addition to any other existing examination-of-records authority, the Federal Government is authorized to examine any of your records and records of your subawards or contracts to the extent necessary to ensure that funds, including supplies and services, available under this grant or cooperative agreement are not provided, directly or indirectly, to a person or entity that is actively opposing the United States or coalition forces involved in a contingency operation in which members of the Armed Forces are actively engaged in hostilities, except for awards awarded by the Department of Defense on or before Dec 19, 2017, that will be performed in the United States Central Command (USCENTCOM) theater of operations.

B. The substance of this clause, including this paragraph (B), must be included in subawards or contracts under this grant or cooperative agreement that have an estimated value over $50,000 and will be performed outside the United States, including its outlying areas.

The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under the award.

For purposes of this section:

"Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

"Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

M. PRIOR APPROVAL REQUIREMENTS

In addition to prior approval requirements specified in 2 CFR 200.308, the recipient must receive prior approval in order to transfer funds between direct cost categories when the Federal share of the award exceeds the Simplified Acquisition Threshold ($250,000) and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent of the total budget including cost share as last approved by the Department. When requesting approval for budget revisions, the recipient must use the same format for budget information that was used in the application, except if the Department has approved an alternate format.

N. BRANDING AND MARKING

The Department of State, its programs, and U.S. Government funding and assistance should be easily identifiable to the Department's global audiences.

Recipients of federal assistance awards must follow the branding guidance published at Guidance for Contracts and Grants - U.S. Department of State Brand System. Branding policy exceptions are outlined in the U.S. Department of State Foreign Affairs Manual.

The opinions, findings and conclusions stated herein are those of the author[s] and do not necessarily reflect those of the United States Department of State*." The recipient must ensure that this disclaimer be included on all brochures, flyers, posters, billboards, or other graphic artwork that are produced under the award.

For general questions about the Department's marking policy and overall branding strategy, please contact branding@state.gov.

O. GOVERNMENT-FINANCED AIR TRANSPORTATION

All Federal government financed international air transportation is required by 49 U.S.C. 40118, commonly referred to as the "Fly America Act," to use U.S. air carrier service for all air travel and cargo transportation services. One exception to this requirement is transportation provided under a bilateral or multilateral air transport agreement, known as an "Open Skies Agreement," to which the U.S. Government and the government of a foreign country are parties, and which the Department of Transportation has determined meets the requirements of the Fly America Act.

Current "Open Skies Agreements" that are in effect can be found here: https://www.gsa.gov/policy-regulations/policy/travel-management-policy/fly-america-act.

Exceptions vary depending on the direction of travel and are outlined in 41 CFR 301-10.136 and 41 CFR 301-10.137.

The recipient must not request payment from the Department for costs associated with the conflict of interest in question pending notification of the GO's determination. The recipient's failure to disclose a conflict of interest may result in cost disallowances.

R. RESTRICTIONS ON LOBBYING

In accordance with 31 USC 1352, the recipient is required to abide by the policy and procedures codified at 22 CFR 138 et seq. By accepting the award, the recipient agrees that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

This certification is a material representation of fact upon which reliance was placed when this award was made or entered into. Submission of this certification is a prerequisite for making or entering into this award imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $20,134 and not more than $201,340 for each such failure.

S. PROHIBITION AGAINST ASSIGNMENT

Notwithstanding any other provision of the award, the recipient must not transfer, pledge, mortgage, or otherwise assign the award, or any interest therein, or any claim arising thereunder, to any party or parties, bank trust companies, or other financing or financial institutions.

T. INDIRECT COSTS

A non-profit organization which has not previously established an indirect cost rate with a Federal agency, that believes the Department should be its cognizant agency, shall submit its initial indirect cost proposal immediately after the organization is advised that the award will be made and, in no event, later than three months after the effective date of the award. When requested by the recipient, the GO will provide instructions on how to submit the indirect cost rate proposal.

U. AUDITS

All U.S. recipients (not including for-profit organizations) that expend $1,000,000 or more during the recipient's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of 2 CFR 200 Subpart F. In addition, the recipients are subject to the audit requirements found in the Single Audit Act of 1984, 31 U.S.C. 7501-7506. The cost of an audit may be charged to the award in accordance with 2 CFR 200.425.

All foreign recipients that expend $1,000,000 or more during the recipient's fiscal year in Department awards must have a single or program-specific audit conducted for that year in accordance with these terms and conditions. In the event the recipient undergoes an audit for another Federal agency, a second audit does not need to be procured so long as the Department's funding was analyzed under the same audit. A program-specific audit means an audit of one Federal award program. Single audit means an audit that includes both the recipient's financial statements and the Department awards received to be conducted in accordance with Generally Accepted Government Auditing Standards (GAGAS).

The audit must be independently and professionally executed in accordance with GAGAS either prescribed by a government's Supreme Audit Institution with auditing standards approved by the Comptroller General of the United States, or in accordance with the host country's laws or adopted by the host country's public accountants or associations of public accountants, together with generally accepted international auditing standards. However, foreign entity audits consistent with International Standards for Auditing or other auditing standards are acceptable with the GO's approval.

The Department and its authorized representatives have the legally enforceable right to examine, audit, and copy, at any reasonable time, all records in the Department's possession pertaining to the award. Furthermore, the Inspector General or any of his or her duly authorized representatives

shall have access to any pertinent books, documents, papers and records of the recipient. The Department reserves the right to make audits, inspections, excerpts, transcriptions or other examinations as authorized by law of the recipient's documents and facilities.

V. SUSPENSION AND TERMINATION

Consistent with 2 CFR 200.340, any award may be terminated in whole or in part as follows:

(1) By the Department, if the recipient fails to comply with the terms and conditions of the award;

(2) By the Department with the consent of the recipient, in which case the two parties must agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated;

(3) By the recipient upon sending to the Department GO written notification setting forth the reasons for such termination, the effective date, and, in the case of partial termination, the portion to be terminated. However, if the Department determines in the case of partial termination that the reduced or modified portion of the award will not accomplish the purposes for which the award was made, the Department may terminate the award in its entirety; or

(4) By the Department, in accordance with the terms and conditions of the award, including, to the extent authorized by law, if the award no longer effectuates program goals or agency priorities. For the avoidance of doubt, the Department has sole discretion over the determination that an award no longer effectuates program goals or agency priorities, and this provision permits awards to be terminated at the Department's convenience, including when it determines that the award no longer advances the national interest.

If at any time the Department determines that all or part of an award should be suspended based on any of the grounds for which termination would be permitted, then the Department may, following notice to the recipient, suspend the award in whole or in part and prohibit the recipient from incurring additional obligations chargeable to the award other than those costs specified in the notice of suspension.

W. APPEALS

If the recipient fails to comply with Federal statutes, regulations or the terms and conditions of the award, the GO may take appropriate action including, but not limited to, withholding payments, disallowing costs, suspending or terminating the award, or initiating suspension and debarment proceedings.

The recipient's appeal should contain:

- A cover letter with a statement of the recipient's position with respect to the disputed factual, legal or other matter and the rationale that supports its position.
- The date the recipient received the GO's decision.
- The amount of disallowed costs in dispute (if applicable).
- Any other relevant documents.

X. CLOSEOUT

In accordance with 2 CFR 200.345, the closeout of the award does not affect any of the following:

(1) the right of the Department to disallow costs and recover funds on the basis of a later audit or review.

(2) The recipient's requirement to return funds or right to receive any remaining and available funds as a result of refunds, corrections, final indirect cost rate adjustments (unless the Federal award is closed in accordance with § 200.344(h)), or other transactions.

This may only be done with the consent of the Department and the recipient, provided the responsibilities of the recipient referred to in paragraph (1) through (6) of this section, including those for property management as applicable, are considered and provisions are made for continuing responsibilities of the recipient or subrecipient, as appropriate.

The recipient may charge the award during closeout for the costs of publication or sharing of research results if the costs are not incurred during the period of performance of the award as well as costs related to the closeout process such as preparation of final programmatic and financial reports.
