TRIP PLANNING

☐	I understand that route selection reflects not only the risk environment, but also road conditions and the location of other friendly groups. I will consider these human-made, natural and road traffic risks when planning a trip.
☐	I understand that I must plan (where possible) alternative options should the primary route become too dangerous as a result of humanmade or natural hazards.
☐	I will take into account the time taken to travel my route, understanding that weather and topographical conditions may affect my trip. I will consider how much fuel is required for long trips and will add a further percent as a safety margin. I will ensure my vehicle has a breakdown kit.
☐	In terms of risk, I will consider weather, road conditions, urban areas, hostile sectors or areas, checkpoints and other group's using routes which might increase, or decrease risk levels.

☐

At all times alternative routes, friendly locations (safe-havens) and relationships, the need to avoid setting patterns of movement (times, routes) and known threat areas and levels will be considered during route selection and planning.

☐

I will review risks to my routes and venue locations **hours** in advance.

☐

I will contact any organizational office locations or other known organizations or individuals at my destination and enquire into the following for trip planning:

- Any events which might present a risk to my passengers
- Any routes which should be avoided due to natural or humanmade risks
- Any areas, towns or villages which subject my passengers to risks
- Any specific times or dates where travel risk may be increased
- Any logistical or administrative issues which could affect safe travel
- Any other recommendations or observations

☐

I will work with my manager to identify primary and secondary routes for all long-distance or high-risk trips. I will ensure the manager is aware of my planned route and departure and arrival timings.

☐

I will also confirm rest stop locations, hotels, police stations and other supporting infrastructures on the route should an emergency situation occur.

☐

I understand that I am not permitted to divert from my route plan without good cause or permission. No deviations for personal reasons are permitted; either for myself or my passengers, unless sanctioned by my manager.

☐

I understand that should deviations be requested they should be cleared through the appropriate manager.

I understand that if such deviations directed by a passenger place myself, my passenger(s) and vehicle at risk, the driver has the authority to decline such deviations.

I understand that I am required to have the following documentation prior to travel.

☐

☐

Log book.

☐

Remarks

*I understand that if being rushed by my passengers I have the right to inform them that **SAFETY** and **SECURITY** is a primary factor and that I am unable to perform a function if it presents a risk to them, other passengers, the vehicle or myself.*

SAFE DRIVING CONSIDERATIONS

The driving standards by other road users may be poor and increase the incidence of road traffic accidents considerably. In addition, poor road conditions and limited emergency response capabilities can exacerbate the effects of an accident. I understand that the following measures (when appropriate) can reduce the chances of road traffic accidents.

☐

I will **NOT** drive at night outside of the local area unless instructed to do so.

☐

I **WILL** be selective of routes and times to travel during the rainy season.

☐

I **WILL** use main highways and roads with good quality surfaces.

☐

I **WILL** ensure the vehicle is serviceable with good tires, brakes and seatbelts.

☐

I will **NOT** overtake on hills, on blind bends or on potholed roads.

I **WILL** drive within set or sensible speed limits. The maximum limits are:

☐

✓ **In Town:** **miles or kilometers**

✓ **Out of town:** **miles or kilometers**

☐

I understand that if instructed by a passenger to increase the speed I have the right to refuse and will inform my manager of the request.

☐

I **WILL** comply with road traffic regulations, lights and signals.

- ☐ I **WILL** ensure all passengers wear seatbelts before I start driving the vehicle.
- ☐ I **WILL** activate door locks when traveling.
- ☐ I **WILL** keep windows closed when traveling through urban or high-risk areas.
- ☐ I will **NOT** eat or drink while driving the vehicle.
- ☐ I will **NOT** use mobile phones or text while driving.

- ☐ I **WILL** ensure I slow the vehicle when passing groups or people, bicyclists, farm animals, children, public gatherings or any other potential hazard.
- ☐ I **WILL** leave **AT LEAST** 2 car lengths between my vehicle and other road users in urban areas and at least 6 car lengths when travelling on highways or open roads [applying the 2 second safety rule for distancing].
- ☐ I **WILL** ensure I am correctly rested before driving and will not drive if tired.

SAFETY AND SECURITY FACTORS

- ☐ I understand that as the driver I am responsible not only for the safe and effective operation of a vehicle, but also for the safety and security of the passengers and the vehicle itself.
- Whenever possible I understand that vehicles should be parked in secure areas protected by a trusted guard force or the organization's staff. On occasions, this may not be possible and I understand that a few simple rules should be followed to improve the security of the vehicle.
- Select a parking place that is as open as possible where there are other people going about their daily business.
 - Where parking overnight or in the evening, avoid parking on side streets or in unlit areas.

- Drivers are not required to remain with vehicles parked overnight, however, at all other times, drivers are to remain with parked vehicles – either sat in the vehicle or in a position from which they have unimpeded observation and ideally at a distance of no more than 50 meters or 150 feet.
- If parking in a marked parking space in a parking garage, park with the vehicle nose facing out as this makes it easier to drive away in an emergency

☐ I understand that my passengers should be advised to place sensitive information under seats where planned travel takes the vehicle through areas where impromptu police or security force checkpoints or searches by hostile persons may occur, making this information more difficult to find, including:

☐ Laptops ☐ Organizational Documents ☐ Passports and Personal Documents

☐ I understand that I should seek to avoid having materials or information in plain view which might compromise safety and security; this could include branding, logos or obvious indicators or phone numbers linked to names or organizations who may be of interest to hostile parties.

☐ For higher risk regions where targeting may occur, I understand that the vehicle and my possessions should be “sanitized” to remove as many indicators as possible which could lead to threatening situations should the vehicle be targeted and stopped by hostile parties.

☐ I will never operate a vehicle at night except in a life-threatening emergency or as directed by a manager.

☐ I will ensure the car doors are locked, and the windows are rolled up during travel within environments where crime and carjacking may present a security risk to myself and the passengers.

☐ I will never allow arms, ammunition, or other dangerous articles to be carried in the vehicle, unless directly authorized by an appropriate manager.

Remarks

EMERGENCY RESPONSES

☐ I will write down the details of the accident before I start traveling again: when it happened, where it happened, what exactly happened, the road conditions, the light conditions, the weather conditions, what speed I was traveling at and the cause of the accident.

☐

I understand that following the accident I am responsible for:

- Making or organizing vehicle repairs and ensuring the vehicle is safe for continued travel
