MEMORANDUM

FROM: YVES-LAURENT REGIS
SUBJECT: USAID616 BANK ACCOUNT SIGNATORY UPDATES
DATE: AUGUST 13, 2021

Background: POA Haiti has two bank accounts to receive project funds, one for Haitian Gourdes and one for U.S. dollars. As per the Haiti Supplemental Field Office Manual, section 6.3., "The bank account should have a HQ staff member and a minimum of two signatories, the FO Finance Manager and the FO Director. The FO Director will approve all the payments and sign all the checks. For payments and checks exceeding USD $750.00, the FO Finance Manager must sign as second signatory." Additionally, "Changes to the signatories on the account must be approved by the FO Director and notification should be provided to Partners HQ."

Action: The USAID616 RANFOSE project is adding Ruth Climat, Technical Director, as signatory to the Partners of the Americas in-country bank accounts. The project Chief of Party, Yves-Laurent Regis, will continue to serve as the primary signatory. Ms. Climat will serve as a back-up when Mr. Regis is on leave or unavailable. She will also serve as the second signatory for transactions which require two signatures. Ms. Climat will not process confidential employee information.

Rationale: Given the unforeseen absence of the second signatory in-country, there is a need for a second bank account signatory in Haiti. Given the limited staff roles in the field, Ms. Climat is the most appropriate second signatory at this time, as she is the second most senior staff member in Haiti. Adding Ms. Climat will ensure that financial transactions are processed and that project activities continue without interruption.

Sincerely,

Yves-Laurent Regis 8/13th, 2021
Chief of Party, RANFOSE
