Hi Barbara,

Many thanks for your message and flagging that the no cost extension is ready for our review and countersignature. I've flagged this to our President and CEO, John McPhail, who is the authorized representative that signs on SAMS D. He will be reviewing today so I will get back to you as soon as he indicates it is signed/accepted on our end.

Many thanks,

Carmen

Hi Carmen,

Thank you and of course understand it takes work on your side to pivot to meet this request.

The short answer to your question is yes. The absolute latest we could award the funds would be September 30, but we anticipate being able to do so over the summer. There are some hold-ups in our internal processes (unrelated to this specific CE) and our receipt of the funds. The activities can end earlier than the 6-month extension, but we want to ensure the project stays open to process the extension. I know this create a bit to work through on your side.

Let me know if you have additional questions.

Best,
Cara

Hi Cara,

Confirming receipt of your messages yesterday and today! Since yesterday, we ran a budget exercise and shared internally with our Finance department to get their approval to move forward with the 6-month extension. We should receive a response within an hour and get back to you before midday today.

Quick question, is the purpose to extend for 6-months instead of 3-months due to potential delays in receiving the cost-extension? When could we anticipate receiving the cost extension (asking this to keep in mind in our internal budget given that we will be very skim in budget beyond the anticipated 3-months, through June). This will be helpful to estimate how to organize the activities within the extension period of 6 months. Many thanks for your guidance!

We will get back soon…

Carmen

Hi Carmen,

Following up on the below request. I appreciate your response as soon as possible given how close we are to the project end date. We would like to extend for 6-months rather than 3 given the current status of our funding and some internal processes; it's best we allow for maximum time to process the proposed extension.

Best,
Cara

Hi Carmen,

We would like to ask Partners to revise the no-cost extension request to be a six-month request. On additional minor request is to please add the grant number to the justification letter.

Let me know if you would like to discuss further and we can set up a call.

Thank you,
Cara

Hi Cara,

Apologies for the delay in getting back with the timeline! Please find attached the requested document. Please note that the activities listed in the letter do not coincide with the same numbering we have in the timeline. We used our current work plan and updated the timeframes using blue shade. Therefore, the activities in the letter fall under the existing activities that are highlighted in blue. Let us know if you have any questions or if you need us to include further details in the timeline.

Many thanks,
