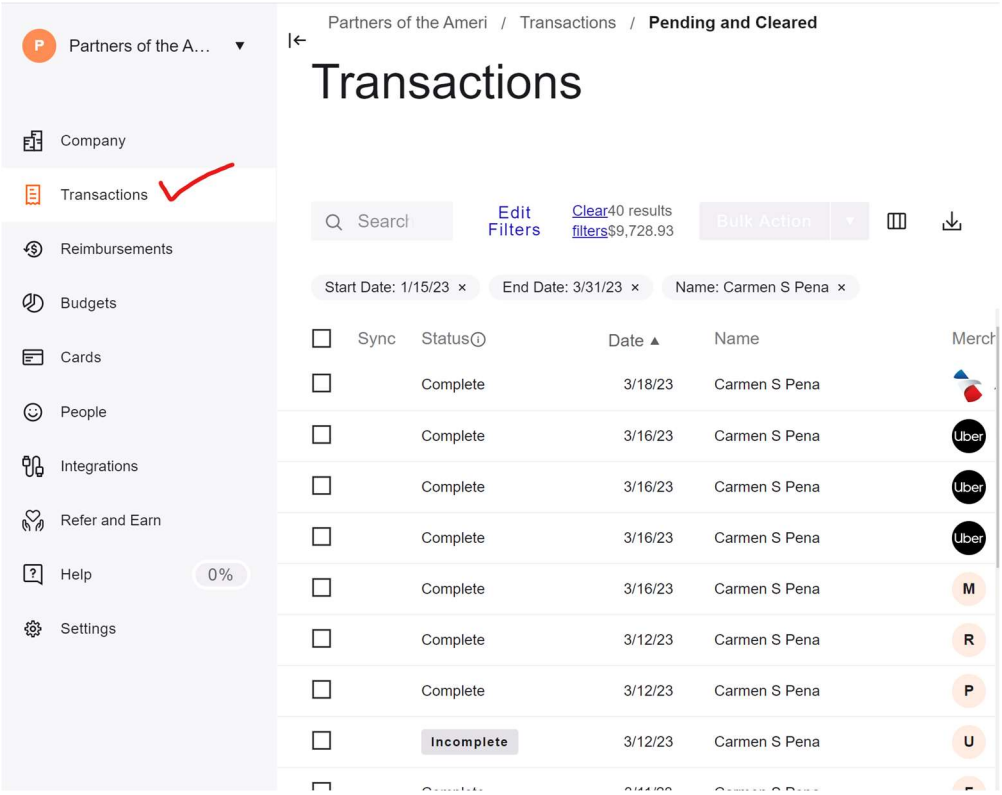
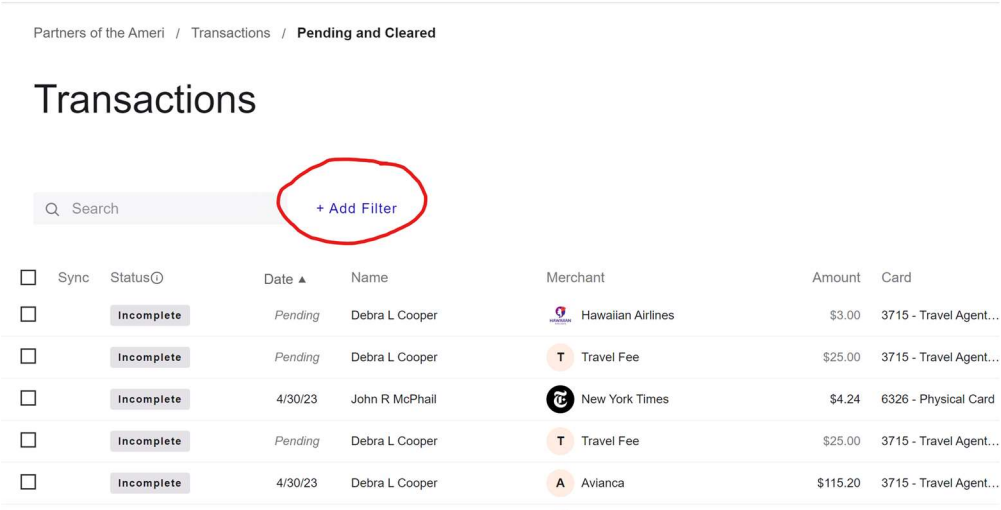
How to approve transactions on DIVVY

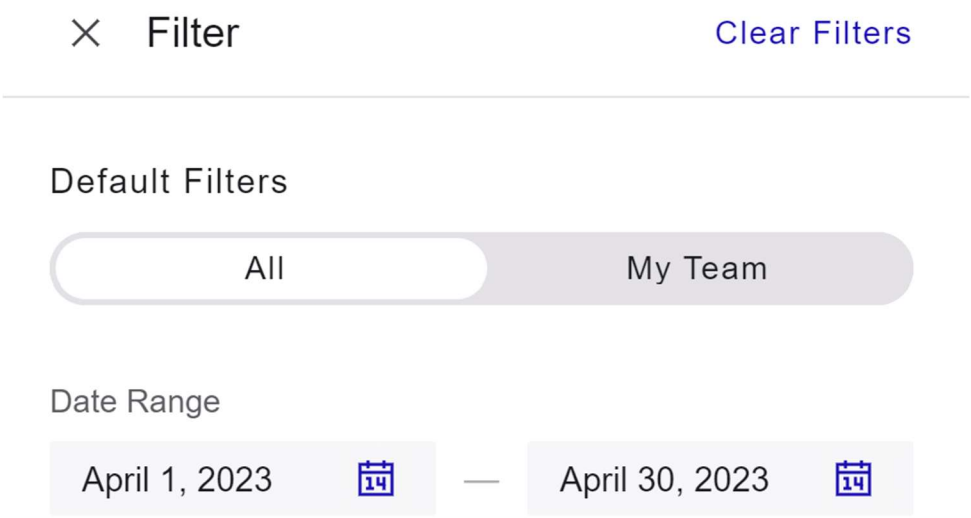
1. Log in and click on “Transactions” on the left side of the screen, see below.



2. Click on “Add Filter”, see below.

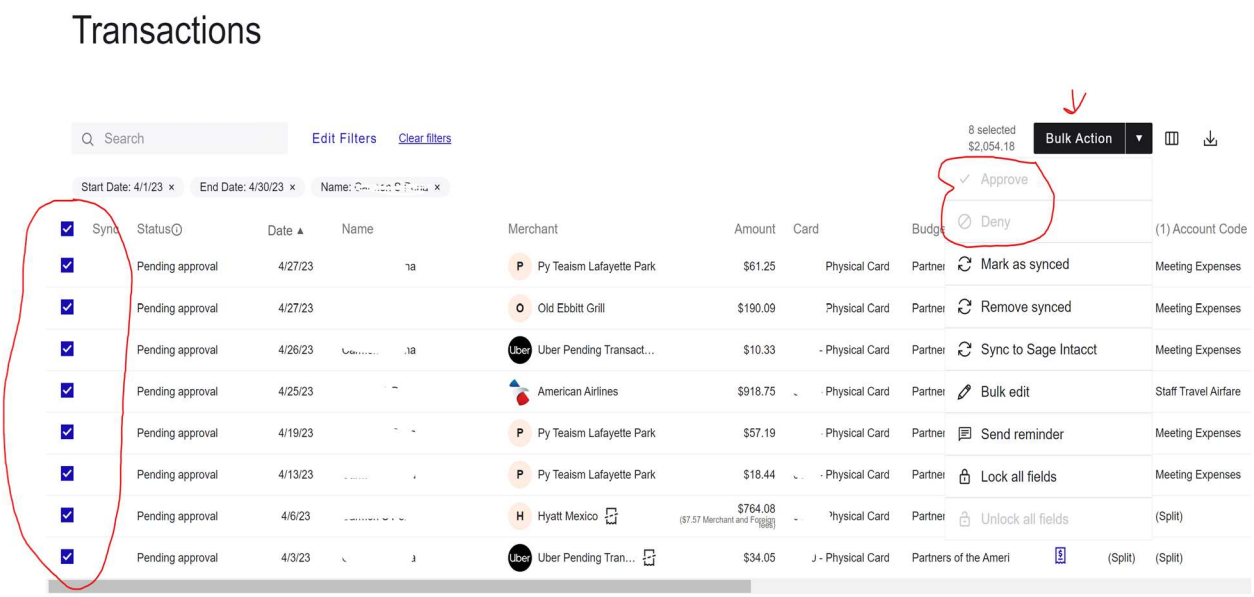


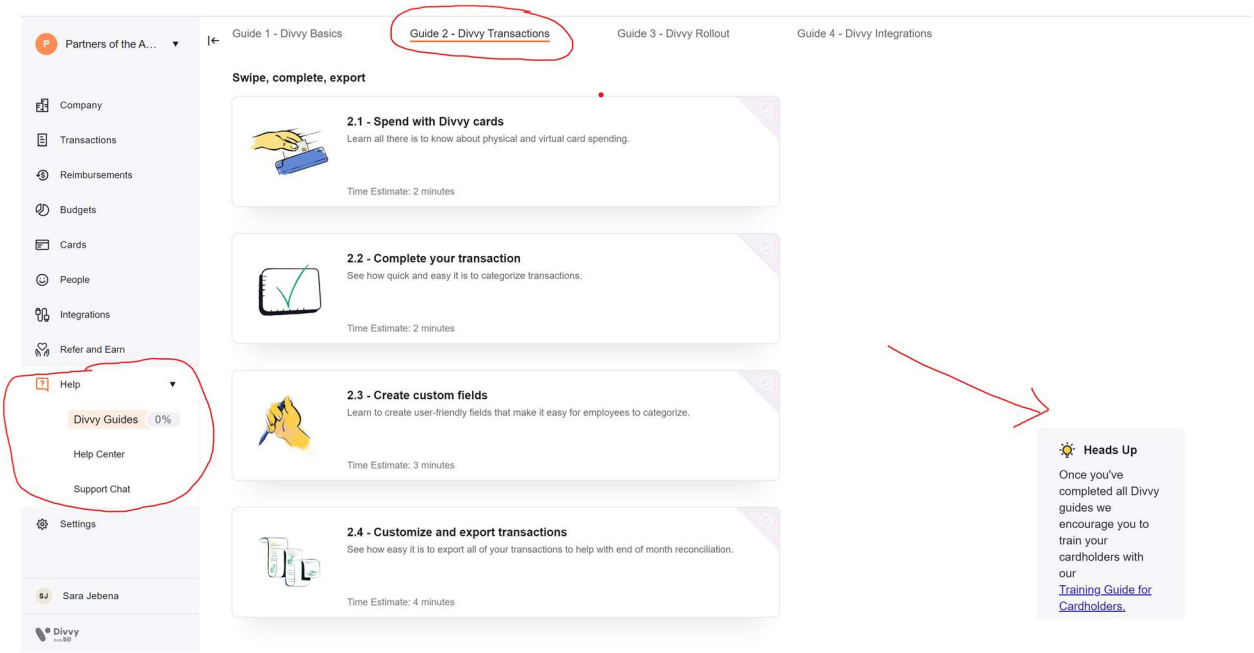
3. Select the date range of transactions to approve, see below for the month of April.



4. Select "Needs your approval" under "Approval Status" and the name of your direct report under "Name". See below.

5. Click on each transaction to review. Once you finish reviewing “Approve” or “Deny” transactions as follows.
6. On the left side of the transactions, you can select individual or a group of transactions to approve or deny. Use “Bulk Action” on top right side of the screen to approve or deny multiple transactions.





For more information and training, please visit the “Help” page located on the left side of the screen.
