PARTNERS of the AMERICAS
Connect • Serve • Change Lives

Dear staff,

Following up on the August all staff meeting, please see the following updates to the submission procedures for payment requests, credit card statements, vendor/tax forms, and funding requests.

Payment Processing

Checks

Effective March 16, 2020, Partners of the Americas migrated to 100% electronic payment processing. As a result of this change, requests for payments by check will no longer be issued to vendors, employees, volunteers, contractors, etc. All payments are processed electronically via ACH (domestic payments) or Wire (international payments). To ensure that all new vendors, volunteers, contractors, etc., receive prompt payment, please inform them of this procedure and request their banking information prior to submitting payment requests.

ACH and Wire Transfers

All payment requests should be created **electronically** through PandaDoc. Templates for each payment type can be found under **Templates → Payment Requests** in PandaDoc.

Payment request templates are programmed to route first to the unit director for signature, then to F&A Payments (Yohana) for Finance confirmation of receipt. Please be sure to include any supporting documents to the file. To ensure that the request is received by Finance, please list F&A Payments (Yohana) as a CC recipient on your payment request file. Payment requests submitted via PandaDoc where Yohana is not copied as a CC will not be processed. **As of August 24, 2020, the Finance Payment Requests folder in Organizational F&A has been deleted and all payment requests must be processed via PandaDoc.**

We continue to advise that the following naming convention be used for your payment request file in PandaDoc:

Unit name - Payment Type - Brief name of recipient – year-month-month day to be processed.

For example: *"**CPU Wire Bejarano 2020-03-31**" or "**Admin ACH Keystone 2020-03-31**"*

Payment requests submitted as of the **8:00 AM cutoff time** on the dates listed on the 2020 Payment Calendar will be processed. Payment requests received after the cutoff time will be processed in the next disbursement cycle (please refer to the current payment calendar for more information).

Vendor and Tax Forms

Templates for all vendor and tax forms can be found under **Templates → Vendor Forms** or **Templates → Tax Forms** in PandaDoc.

These forms are programmed to route first to the third-party signatory, then to F&A Payments (Yohana) upon completion. To ensure that the forms are received by Finance, it is important to confirm that F&A Payments (Yohana) is listed as a CC recipient on the vendor/tax form. If this

procedure is followed, it is unnecessary to save an additional copy of these forms under the Vendor & Tax Forms - Completed Folder in Organizational F&A.

Credit Cards

All current credit card holders will continue to receive their monthly statements by email.

All credit card statement reports from staff should be created **electronically** through PandaDoc. Templates for credit card reports can be found under **Templates → Credit Card Report** in PandaDoc.

Credit card report templates are programmed to route first to the submitter for signature, then to the unit director for approval signature, and finally to F&A Payments (Yohana) for Finance confirmation of receipt. Please be sure to include any supporting documents to the file. To ensure that the completed report is received by Finance, please list F&A Payments (Yohana) as a CC recipient on your credit card report file. **As of August 24, 2020, the Finance Credit Card Submissions folder in Organizational F&A has been deleted and all credit card reports must be processed via PandaDoc.**

Requests for Funding

Templates for Requests for Funding should be created **electronically** and can be found under **Templates → Request for Funding** in PandaDoc.

These forms are programmed to route to the unit director for signature first, then the CFO (Peggy) for Finance confirmation of receipt of the request. Please be sure to include any supporting documents to the file. **As of August 24, 2020, the Finance Funding Requests folder in Organizational F&A has been deleted and all funding requests must be processed via PandaDoc.**

We continue to advise that the following naming convention be used for your funding request file in PandaDoc:

Project code - year - month.

For example: *"**DOL419 2020-04**" or "**USAID619 2020-05**"*

As a reminder, requests for funding are due to the Finance team on the **21st of each month**.

Use of these new updated procedures will enable us to continue processing all payments according to our established payment cycles. These processes also contribute to meeting our organizational sustainability goals to reduce dependency on paper documentation.

If you have any questions regarding these changes, please do not hesitate to reach out to the Finance Team. We thank you for your cooperation and welcome any suggestions that you may have that will help us to further streamline our electronic submission procedures.
