L.5 PROPOSAL SUBMISSION

Failure to conform to any of the requirements of the solicitation will be grounds for rejection of the proposal.

L.5.1 ADMINISTRATIVE REQUIREMENTS

1. The Offeror's proposal shall be submitted via email to following:

Contracting Officer, Charlene Webb – cwebb@esg.fema.dhs.gov
Contract Specialist, Rashaan Edwards- Rashaan.Edwards@esg.fema.dhs.gov

2. The offeror's proposal shall consist of one volume.

3. The use of hyperlinks in proposals is prohibited.

L.5.2 PROPOSAL FILES

FORMAT: Offeror proposals may be considered unresponsive and/or unacceptable if they do not contain information sufficient to evaluate the proposal in accordance with the factors identified in the solicitation or other necessary proposal components.

The material contained in the offeror's proposal should be relevant to the requirements stated in the solicitation and be relevant to the designated evaluation criteria as stated herein. Failure to include the requested information may have a negative impact on the evaluation of the proposal. Proposals must provide a straightforward, concise description of methodology and approach to satisfy the requirements of this RFP. Emphasis should be on completeness and clarity of content with sufficient detail to allow for accurate evaluation and comparative analysis. Graphics, visuals, and images should be easily legible and relevant to the content of your proposal.

Provide responses to the RFP in a Microsoft Word document (or a PDF document) limited to 40 pages. Use a font size no smaller than Times New Roman 11 pt for body text and no smaller than Arial 8 pt in graphics and tables. Each sheet should have 1-inch margins all around.

Provide the Pricing Worksheet (Attachment 1) separately as an Excel file. Do not convert this to PDF. The Pricing Worksheet is not included in the 40-page limit.

The response must be submitted electronically via email to the Contracting Officer and Contract Specialist named in Section L.5.1. No hard copies will be accepted. Offerors should not include linked documents in the response files. Instead, provide answers in concise text for ease of review and evaluation.

Responses and other supporting documentation submitted will become the property of ESG and will not be returned.

COMPLIANCE MATRIX: Provide a compliance matrix with your response for ease of evaluation.

EXECUTIVE SUMMARY (See Section M). Offerors may provide an Executive Summary, limited to 3 pages. The Summary will be reviewed but not scored as part of the evaluation and will not count toward the 40-page limit. The Executive Summary should contain a summary of the proposed solution and the value to ESG and its mission and vision.

EXPERIENCE AND SERVICE METHODOLOGY (See Section M). Describe your company's relevant experience in the public sector and your methodology for services customer organizations, globally. In you concise response, address:

- Capability and experience in similar situations for Services in scope
- Case studies and references
- Global and local presence
- Industry knowledge and sensitivity
- Solution design and approach to service delivery
- Tools and processes to deliver the in-scope services
- Human Resources approach
- Alignment to ESG objectives
- Change management

TRANSITION APPROACH (See Section M). An effective and timely transition of the in-scope activities is essential to the success of this initiative. Describe your company's approach to the transition phase and specifically address the following in your response:

Transition Methodology: Describe how your transition methodology and approach will be tailored to this initiative in a public sector environment.

Transition Plan & Resources: Outline in general terms how you will commence operations if you are awarded the contract. Provide a high-level schedule showing the timing of transition activities from contract signing through to handover of services delivery. Provide an organization chart for your transition team, identifying roles of key resources. How many of the resources involved during transition will also form part of the on-going service delivery team? What are their responsibilities in each phase?

Transition Experience: Provide details for two (2) transition efforts, indicating similarities to the anticipated ESG transition:

1. Overall description of the transition requirements
2. Transition methodology used
3. Knowledge transfer requirements
4. Size of the transition
5. Establishing/readying delivery/service centers
6. Any unplanned downtime
7. Did the transition involve training resources?
8. Was the transition completed within the budget and original schedule? If not, explain.

Transition Lessons Learned: Based on the above two (2) transition efforts, provide three (3) lessons learned for each and how they will be applied to the anticipated transition. (Maximum points for three relevant lessons learned for each example that can be applied to the anticipated transition).

Transition Risk Management: Provide an overview of the significant challenges experienced during a typical transition, from a client's own in-house services. (This could be, but does not have to be, one of the two client examples above). Describe how the challenge was addressed and applicability to the anticipated ESG transition.

Change Management and Communication Plan: What steps does your organization take to communicate and prepare ESG for the transition?

Identify what support you need from ESG for the successful execution of your proposed transition plan. Include what ESG support is needed to train new associates, (e.g., on-site trainers). What travel requirements will exist for ESG's trainers? How long would you recommend they be on site? How many and how frequently should subsequent visits be scheduled?

What type of support is needed and/or recommended by you for ESG's management/trainers after the initial transition is complete?

QUALITY ASSURANCE, INNOVATION, & CONTINUOUS IMPROVEMENT (See Section M). Our vendor's approach to quality assurance, innovation, and continuous improvement is of the utmost importance in our evaluation of a partner. Our current system has served us well due to simplicity and ease of use. Please address your approach to:

- Proactive achievement of ESG objectives
- Quality Management
- Improving service and reduce costs, over time

ACCOUNT TEAM STRUCTURE, PROJECT MANAGEMENT, AND RELATIONSHIP MANAGEMENT (See Section M). Project management describes how your account team will work with ESG personnel to produce a collaborative, constructive relationship.

Account Team Structure: Describe how the account team will be organized, identify key personnel, and describe the responsibilities and authority of key personnel.

Project Management Processes: Provide an overview of your project management processes that you will put in place with ESG. Describe proposed team structures, team roles and responsibilities, communication strategy with ESG, recommended frequency of meetings, etc. Describe how you will monitor and manage the relationship. Response must include a list of processes, key activities, key roles, and responsibilities for each process.

Service Level Performance Management: Describe ongoing service delivery structure, including: roles and responsibilities, reporting lines, levels of authority, success criteria, and incentives.

Reporting: Describe your approach to measure and report on the various services to be performed, including:

1. Process to finalize and accept SLAs
2. How ESG will access the base data used for SLA reporting
3. Flexibility of your reporting tools to provide ad-hoc reports
4. The extent to which ESG will be able to query and manipulate the data in the reports

PRICING: In Attachment #2, provide pricing for total cost of ownership (proponent price and other costs for the proposed solution).

MSA: In Attachment #3, provide contract terms acceptance from ESG Master Services Agreement.

SECTION M – EVALUATION FACTORS FOR AWARD

M.1 NOTICE LISTING SOLICITATION PROVISIONS INCORPORATED BY REFERENCE

The following solicitation provisions pertinent to this section are hereby incorporated by reference (by Citation Number, Title, and Date) in accordance with the FAR provision at FAR "52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE" in Section L of this solicitation. See FAR 52.252-1 for an internet address (if specified) for electronic access to the full text of a provision.

NUMBER	TITLE	DATE
52.217-5	EVALUATION OF OPTIONS	JUL 1990

M.2 GENERAL

The Essential Specialty Gear (ESG) Commission is seeking a Customer Relationship Management (CRM) vendor with a proven history, commitment to continuous improvement, superior quality in product and service delivery, and willingness to work collaboratively to strengthen the public/private partnerships required for effective gear services during times of emergency.

An evaluation committee will review and evaluate each offeror's submitted response. ESG may award multiple contracts to the selected suppliers provided their responses meet the requirements of this RFP and our evaluation committee’s criteria during subsequent interviews.

Proposals shall remain open and firm for 180 days after submission. ESG will evaluate offerors’ proposals based on each offeror's demonstrated ability to deliver the scope of work required in this RFP in accordance with the offeror’s responses to the Pricing Worksheet (Attachment 1) and the Vendor Business Questionnaire (Attachment 2). Our evaluation of an offeror's ability to provide the required services will be based on the offeror's submitted written material and past performance in delivering similar CRM transition and installation services.

After implementation, ESG anticipates a two-year contract term with three 1-year options dependent upon ESG’s performance evaluation of offeror and the services, thereafter, unless the Contract has been terminated or canceled.

Offeror(s) will be evaluated based on their ability to meet the following requirements.

M.3 EVALUATION FACTORS

Evaluation of all offers will be made in accordance with the criteria outlined in this section. The proposals will be evaluated against the following six (6) factors:

Factor 1: Experiences and Services Methodology (25%). Offeror's relevant experience in the industry and methodology for customer organizations, globally.

a. Sub-Factor 1: Capability and experience in similar situations for Services in scope
b. Sub-Factor 2: Case studies and references
c. Sub-Factor 3: Global and local presence
d. Sub-Factor 4: Industry knowledge and sensitivity
e. Sub-Factor 5: Solution design and approach to service delivery
f. Sub-Factor 6: Tools and processes to deliver the in-scope services
g. Sub-Factor 7: Human Resources approach
h. Sub-Factor 8: Alignment to ESG objectives
i. Sub-Factor 9: Change management

Factor 2: Transition Approach (25%). Offeror's approach to the transition phase and the following:

- *Sub-Factor 1: Transition Methodology.* The offeror describes how its methodology is tailored to the ESG environment.

- *Sub-Factor 2: Transition Plan & Resources.* The offeror outlines in general terms how it will commence operations if awarded the contract. The offeror provides a high-level schedule showing the timing of transition activities from contract signing through to handover of services delivery. The offeror provides an organization chart for its transition team, identifying roles of key resources. The offeror defines how many of the resources involved during transition will also form part of the on-going service delivery team. The offeror defines the responsibilities of these resources in each phase.

- *Sub-Factor 3: Transition Experience.* The offeror provides details for two (2) transition efforts, indicating similarities to the anticipated ESG transition, including:
    1. Overall description of the transition requirements
    2. Transition methodology used
    3. Knowledge transfer requirements
    4. Size of the transition
    5. Establishing/readying delivery/service centers
    6. Any unplanned downtime
    7. Did the transition involve training resources?
    8. Was the transition completed within the budget and original schedule? If not, explain.

Transition Lessons Learned: Based on the above two (2) transition efforts, the offeror provided three (3) lessons learned for each and how they will be applied to the anticipated transition.

- *Sub-Factor 4: Transition Risk Management.* The offeror provided an overview of the significant challenges experienced during a typical transition, from a client's own in-house services. (This could be, but does not have to be, one of the two client examples above). The offeror effectively described how the challenge was addressed and applicability to the anticipated ESG transition.

- *Sub-Factor 5: Change Management and Communication Plan.* The offeror defines the steps taken to communicate and prepare ESG for the transition.

The offeror identifies the support it needs from ESG for the successful execution of the proposed transition plan. The offeror identifies what ESG support is needed to train new associates, (e.g., on-site trainers). The offeror defines the travel requirements for ESG's trainers. The offeror states how long it recommends the trainers be onsite. The offeror states how many and how frequently subsequent visits should be scheduled.

The offeror states the type of support needed and/or recommended for ESG's management/ trainers after the initial transition is complete.

Factor 3: Quality Assurance, Innovation, & Continuous Improvement (20%). The offeror defines its approach to quality assurance, innovation, and continuous improvement and links it to ESG's requirements. The offeror addresses:

- Proactive achievement of ESG objectives
- Quality Management
- Improving service and reducing costs, over time

Factor 4: Account Team Structure, Project Management, and Relationship Management (15%). The offeror described how its account team will work with ESG personnel to produce a collaborative, constructive relationship.

- *Sub-Factor 1: Account Team Structure.* The offeror described how its account team will be organized, identified key personnel, and described the responsibilities and authority of key personnel.

- *Sub-Factor 2: Project Management/Processes.* The offeror provided an overview of its project management processes that it will put in place with ESG. The offeror described proposed team structures, team roles and responsibilities, communication strategy with ESG, recommended frequency of meetings, etc. The offeror described how it will monitor and manage the relationship. The offeror included a list of processes, key activities, key roles, and responsibilities for each process.

- *Sub-Factor 3: Service Level Performance Management.* The offeror described ongoing service delivery structure, including: roles and responsibilities, reporting lines, levels of authority, success criteria, and incentives.

- *Sub-Factor 4: Acceptance and Reporting of SLAs.* The offeror describes its approach to measure and report on the various services to be performed, including:

  1. Process to finalize and accept SLAs
  2. How ESG will access the base data used for SLA reporting
  3. Flexibility of its reporting tools to provide ad-hoc reports
  4. The extent to which ESG will be able to query and manipulate the data in the reports

Factor 5: Pricing (15%). In Attachment #1, the offeror defines total cost of ownership (proponent price and other costs for the proposed solution).

Factor 6: Master Services Agreement (MSA) (no points). In Attachment #2, the offeror agrees to contract terms from ESG Master Services Agreement or provides recommended changes. The offeror included service schedules.

Ratings for Evaluation Factors 1 through 6	
Rating	**Definition**
Superior	The proposal demonstrates an excellent understanding of the requirements and an approach that significantly exceeds performance or capability standards. The Offeror's proposal addresses all aspects of the requirements in detail and has one or more significant strengths that will significantly benefit the Government and risk of unsuccessful performance is very low.
Satisfactory	The proposal demonstrates an understanding of the requirements and an approach that meets performance or capability standards. The Offeror's proposal addresses most aspects of the requirements and presents an acceptable solution with no significant strengths and one or more strengths and risk of unsuccessful performance is moderate.
Unsatisfactory	The proposal fails to meet requirements and one or more deficiencies exist for which correction would require a major revision or redirection of the proposal. The Offeror's proposal does not address key aspects of the requirement and a contract cannot be awarded with this proposal as the risk of unsuccessful performance is high.

M.4 BASIS FOR AWARD AND EVALUATION METHODOLOGY

FEMA (ESG) will award a single contract to the responsible Offeror whose offer conforms to the RFP and will be the most advantageous to the Government. This is a Best Value competitive effort. The lowest priced proposal or the proposal receiving the highest technical evaluation rating may not necessarily receive the contract award.

END OF SECTION M
